

What Can I Put In My Blue Dry Recycling Bin?

Tips for using your Blue Dry Recycling Bin

- Only materials mentioned on the yes list should be placed in your Blue Recycling Bin.
- All materials should be clean and dry, free of any food/ drinks contamination and compressed where possible.
- There is no need to separate the different recyclable materials. **No need for plastic bags.** (Please put in loose)
- In the interest of Health and Safety Country Clean Recycling Ltd. is not collecting Glass in the recycling bin. Take your glass to your nearest bottle bank.
- Bins contaminated by materials **NOT** on the **YES** list or wet dirty material will not be collected.
- A Rejection Sticker will be placed on contaminated Bins.
- The owner must remove the contamination from rejected Bins.
- Put your bin out for collection on next recycling day containment free

Remember!!!

Your recycling bin is collected on alternate week to your refuse bin.

Only materials Mentioned on the **YES** list may be placed in your **Blue Dry Recycling Bin.**

Remember "if in doubt, leave it out."
